What some are saying...

“With the Covid mandatory shutdown of my business, Laura enabled me to create online options that kept income flowing until reopening. We were then able to reopen with our full pre-pandemic staff, and business is flourishing with a 17% increase in sales compared to a year ago.” Melody E. (TX)

“Laura Jackson Loo is a dynamic, compassionate, thought-provoking speaker. Her ability to interweave complex and separate pieces of research and information together in a way that is easily understood is powerful. If this were her only strong suit, that would be more than enough, but it's not. Laura takes the new paradigm leader beyond the mind and fully engages the heart in the change that is required within each of us to shift the paradigm away from helplessness to empowerment.” Carol F. (VA)

“Thank you, Laura.... super and ubiquitous talk last night. What a lovely heart-spoken presentation of your life experience leading you to the conscious work of helping businesses and their leaders navigate the sensitive nature of our changing times. I truly stepped out of time onto a platform for visioning business going forward, as I listened to your extraordinary journey and dedication to this endeavor.” Krystal F. (VA)
